

1992

Subject Index

This index describes the contents of Chemical Engineering Progress, Volume 88, Numbers 1 through 12. An index of contributing authors begins on page 83.

This subject index is available for \$5 on 5¼ and 3¼ in. disks in ASCII format for DOS and Macintosh systems. Order from Karen Simpson, Assistant Editor, CEP, 345 E. 47 St., New York, NY 10017. Make checks payable to AIChE.

A

Absorbers
gas distribution in, June 46
troubleshooting of, June 41
Absorption for plant odor control, Dec. 56
Academia and two-career families, Apr. 18
Acetaldehyde process eliminates toxic chlorinated organic byproducts, Mar. 17
Acid rain program enters second decade, Feb. 29
Adsorption for plant odor control, Dec. 56
Aerosol process for powder production, Oct. 20
AIChE
employment service, June 12
"no paper-no podium" policy, June 7, Sept. 10
programs to promote employment, Apr. 7
Air and steam stripping for wastewater treatment, Sept. 41
Air classifiers
combination elutriation/vortex type, July 61
high-energy dispersion type, July 61
multi-wheel turbine type, July 61
scale-up and control of, Apr. 50
spiral separator type, July 59
turbine classifier wheel type, July 61
Air-pollution control
biofiltration for decontaminating gases, Apr. 34
laws that affect plants, Apr. 30
operating permit program for plants, Apr. 41
Air-quality modeling, Mar. 68
Air stripping for removing VOCs from wastewater, Feb. 89
ALERT, wire service on technical developments, June 16
Aliphatic organic chemicals, exports and imports, Aug. 64
Alloys, for fertilizer acids, Nov. 82
American Technology and Competitiveness Act, July 24
Anaerobic treatment of animal wastes in Puerto Rico, Oct. 17
Aromatic organic chemicals, exports and imports of, Aug. 65
Asbestos
detection technique, Mar. 19
hearings scheduled on, Apr. 26
ASTM standards for plastic lined piping, Apr. 58
Audit Master software for tracking safety compliance, Aug. 69
Automation, batch, Apr. 61

B

Bacteria for oxidation of VOCs, Apr. 38
Baffles, double-segmental, in shell-and-tube heat exchangers, Nov. 47
Ball valve materials for abrasive processes, Dec. 73
Battery recycling, May 14
Bearing problems in pumps, June 65
Binomial steam traps, Jan. 33
Biodesign
fuels, pollution control drives interest in, Feb. 14

plant planned in Europe and U.S., Nov. 18
Biofiltration for decontaminating gases, Apr. 34
Biological scrubbers for plant odor control, Dec. 59
Biological treatment of wastewater, Sept. 42
Biomonitoring to reduce effluent toxicity, Sept. 43
Bioprocess Engineering: Basic Concepts, book review, Aug. 82
Bioreactors
guidelines for design, materials, selection, and finishes of, Jan. 55
in-place cleaning of, Sept. 85
sterility of, Sept. 80
Biosensors for bioprocessing, Jan. 63
Biotechnology research, U.S. fiscal '93 budget proposals, Mar. 29
Boilers
fire-tube, Feb. 61
and heaters for VOC control, Dec. 55
heat recovery, Feb. 59
surface area, role in sizing and specifying, Oct. 70
water-tube, Feb. 62
Book reviews
Bioprocess Engineering: Basic Concepts, Aug. 82
Distillation Design, May 88
Heat Transfer Design Methods, Sept. 92
McGraw-Hill Encyclopedia of Science and Technology, July 86
Mixing for the Process Industries, Oct. 99
Quality at Work in Research and Development, Dec. 84
Bromine recovery from hydrobromic acid, Sept. 16
Business and economics
custom manufacturing, Nov. 67
technology acquisition, Oct. 77
U. S. chemicals trade surplus, Aug. 63

C

Carbon adsorption for wastewater treatment, Sept. 40
Catalysts
adds life to CO₂ lasers, June 16
development via organometallic chemistry, July 12
for removing nitrogen compounds, July 21
internal surface area maximization, June 37
pressure drop and bulk physical properties, June 36
in reactive distillation, Mar. 43
regeneration behavior of, June 38
spent, precious metals recovery from, Dec. 66
system for acrylate and methacrylate polymerization, Mar. 23
upgrade of, June 33
Catalytic combustion in jet engine design for eliminating nitrogen oxide, Mar. 19
Catalytic process for recovery of bromine, Sept. 16
"Catastrophic release" defined by OSHA, Apr. 25
Cavitation and recirculation in centrifugal pumps, Nov. 35
Centrifugal pumps, Oct. 67, Nov. 35
Ceramic filter applications, process parameters for, Aug. 81
Ceramics, measuring surfaces of, July 12
Certification programs for operators, Mar. 92

Channel Industries Mutual Aid Association (CIMA), Dec. 62

Chemical engineering and U.S. fiscal '93 budget, Mar. 28

Chemical engineers
job outlook brightens, June 10
salaries of, May 7
two-career families, Apr. 10

Chemicals
aliphatic organic, exports and imports of, Aug. 64
aromatic organic, exports and imports of, Aug. 65
export destinations of, Aug. 66
import sources, Aug. 67
inorganic, exports and imports of, Aug. 66
inorganic, methods for identifying and quantifying, Nov. 57
organic, methods for analyzing and identifying, Nov. 57
reactivity of, defined by Resource Conservation and Recovery Act, Nov. 57
toxic, identification and screening of, Aug. 33
trade surplus, U. S., Aug. 63

Chemical Waste Management loses Superfund suit, Nov. 19

Chitin gobble up toxic waste, Sept. 24

CIM (See computer integrated manufacturing)

Classifiers, particle-size, measuring performance of, Mar. 29

Clays, pillared, sorbent properties of, Sept. 18

Clean Air Act
Amendments
operating permit program, Apr. 41
effect on Process Safety Management standard, Apr. 25
overview, Oct. 61
programs and standards of, Apr. 30

Clean Water Act
provisions of, Sept. 30
revisions unlikely this year, July 24

CO₂ lasers given longer life by catalyst, June 16

Coal
ash deposit properties predicted by computer model, Sept. 22
cleaning with bioreactor that uses microbes, Mar. 25
-derived methanol process, July 22
powers combustion turbine, Feb. 22

Coatings
for ball valves, Dec. 74
cross-directional flow control, Aug. 15

Colloidal suspensions, spin coating of, Apr. 22

Communication plans for handling crises, Mar. 96

Competitiveness Council may be curtailed, Sept. 26

Compliance Manager software for tracking safety compliance, Aug. 70

Composites, intermetallic, for high temperatures, Nov. 20

Comprehensive Environmental Response, Compensation, and Liability Act, May 50

Computer-aided process engineering, Feb. 76

Computer-integrated manufacturing for continuous process plants, Nov. 71
and process control, Nov. 78
process vs. discrete, Nov. 72
and simultaneous engineering, Nov. 73
in the chemical process industries, Nov. 9
and unified process operations planning and engineering system (Unified System), Nov. 73

Computing and communications, U.S. fiscal '93 budget proposals, Mar. 28

Condensation for plant odor control, Dec. 57

Confidential information transfer survey questionnaire, Apr. 76
survey results, Oct. 85

Congressional reorganization proposed, Nov. 22

Consultant selection for environmental protection, Jan. 48

Control charts for statistical process control, Mar. 86

Controllers
on-line benefits of, June 74
PID, for on-line quality control, May 71
single-loop and multiloop, Feb. 54

Control scheme for column-material balance, selection of, Oct. 33

Cooling towers, predicting the number of transfer units, Apr. 67

Corrosion
of heat exchanger sparger tubes, July 36
in heat recovery boilers, Feb. 60
of polymers, Aug. 77

Corrosive materials defined by Resource Conservation and Recovery Act, Nov. 54

Cottrell, Frederick Gardner, elected to National Inventors Hall of Fame, Apr. 24

Crisis communications plans, development of, Mar. 96

Critical technologies
role of chemical engineering, report on, Oct. 18
funding proposed, June 22

Critical Technologies Institute
funding requested for, Apr. 26
shelved by White House, Sept. 26

Cross-flow filtration, Nov. 60

Crystal and zeolite experiments on space shuttle, Aug. 13

Crystalline compound with optical properties, Oct. 22

Crystallization processes, Mar. 57

Cumulative Sum statistical process control chart, Mar. 91

Custom manufacturing, Nov. 67

D

Data analysis techniques, Oct. 46

Depth vs. pleated filter cartridges, Mar. 75

Design
bioreactor, Jan. 55
for bioreactor sterility, Sept. 80
of processes, Pinch technology for, Sept. 62
recommendations for PLCs, Jan. 61

Diesel-Bi vegetable oil fuel tested, May 16

Diesel engines
emissions facility for opens, July 23
infrared imaging techniques for, Mar. 22

Discrimination, age, overcoming, Jan. 74

Distillate condensate, subcooled, potential of, June 59

Distillation
-adsorption hybrid system, Mar. 37
energy consumption in, Mar. 34
vs. melt crystallization, Mar. 54
-pervaporation hybrid system, Mar. 38
reactive, Mar. 43

Distillation Design, book review, May 88

Dry delivery systems, Dec. 12

Dryers
batch, control of, Dec. 32
consortia and symposia, Dec. 36
control
closed-loop feedback, Dec. 30
feedforward, Dec. 30
manual feedback, Dec. 29
temperature drop model, Dec. 31
diagnostic tools, Dec. 37
direct, calculations for, Dec. 44
direct and indirect, Dec. 24, 46
flash, Dec. 22
fluid-bed, Dec. 23
particle-size considerations, Dec. 24
rotary, direct-heat, Dec. 22
rotary, steam-tube, Dec. 23

safety considerations, Dec. 26
selection of, Dec. 20, 35
software for, Dec. 41
spray, Dec. 23
temperature and moisture considerations, Dec. 25
troubleshooting, Dec. 37

E

Eastern Europe, grant awarded to spur U.S. involvement in improving environmental quality, Jan. 24

Education
Academies for Mathematics and Science Teaching Skills Act of 1992 introduced, Sept. 26
American student quality questioned, June 79
college enrollment demographics, June 84
curricula of U.S. schools, June 83
engineering degrees decline 3%, Feb. 22
enrollments declining in engineering schools, July 16
mentoring by veteran engineers, July 7
minority enrollment lags in science and engineering, June 18
public school role in, June 88
teacher qualifications, June 83
technical, problems facing, Apr. 81

Electrochemical sensors
amperometric types, July 64
potentiometric types, July 63

Electroplating strips heavy metals from soil, Mar. 25

Electrostatics and plastic materials, Sept. 76

Emergency Planning and Community Right-to-Know Act, May 49

Emergency response to plant accidents, Dec. 62

Emissions, air-quality modeling of, Mar. 68

Employment
AIChE programs, Apr. 7, June 12
confidential information transfer survey on, Apr. 76
survey results, Oct. 85
hazardous materials workers require more rigorous training, Aug. 17
job-hunting tips for the over 50, Jan. 74
outlook brightens for ChEs, June 10
science and engineering workforce growing, May 18
sexual harassment of women engineers, Jan. 7, 12
technical sales, Sept. 89
two-career families, Apr. 10

Energy
consumption in distillation, Mar. 34
policy expected to be presidential campaign issue, Feb. 31
savings for separation technologies, Mar. 32
savings with electronic motor drives, Feb. 44
technology R&D, U.S. fiscal '93 budget proposals, Mar. 28

Energy bill threatened in Congress, Aug. 17

Energy transfer/conversion
baffles, double-segmental, in shell-and-tube heat exchangers, Nov. 47
boiler surface area, Oct. 70
cooling towers, predicting the number of transfer units, Apr. 67
heat recovery boilers, Feb. 59
heat-tracing system selection, Mar. 63
Pinch technology for process design, Sept. 62
steam tracing, Aug. 40
subcooled distillate condensate, potential of, June 59
thermal-oil heat-transfer systems, May 42

Environment

in Eastern Europe upgraded by U.S. companies, Jan. 24
National Institutes for, may be formed, Sept. 27
Environmental labs, federal accreditation of unlikely, Apr. 26
Environmental legislation glossary, Jan. 50
Environmental protection
air-quality modeling, Mar. 68
air stripping for removing VOCs from wastewater, Feb. 89
consultant selection, Jan. 48
fluid-bed incineration for hazardous waste destruction, June 50
fugitive emission reduction through improved process equipment, Oct. 61
hazardous waste
identification and tracking of, Nov. 54
legislation, May 45
incineration and waste minimization, July 53
odor control in CPI facilities, Dec. 53
plant design review, Aug. 46
risk assessment guidelines for developmental toxicity issued by EPA, Jan. 23
and sustainable development, Feb. 84
Environmental Protection Agency
assessment guidelines for developmental toxicity issued, Jan. 27
Clean Air Act standards, Apr. 30
data sought on ozone-depleting substances, Apr. 26
guidance on volatile organic compounds released, Feb. 29
hazardous waste, proposal retracted, Nov. 23
hazardous waste, criteria clarified, Feb. 29
Pollution Prevention Policy Council
identifies priorities, Mar. 18
proposing abbreviated premanufacturing notice review for chemicals, Dec. 18
radioactive waste rule due, Apr. 25
total recycle not demonstrated technology, Jan. 27
toxic release inventory released, Aug. 17
Environmental Technologies Agency may be formed, Sept. 27
Erector Sets, Sept. 87
Ethanol
dehydration via membrane pervaporation, July 49
myths, Sept. 23
from paper sludge, process for, Oct. 19
Ether production using reactive distillation, Mar. 48
Ethics rules opposed by technical societies, Jan. 27
Ethylene polymerization process to be commercialized, June 20
Expert system and HAZOP studies, Aug. 28

F

FastSafe valves, Oct. 44
FastRegs/OSHA software for tracking safety compliance, Aug. 70
Fauske method for vent sizing, Nov. 94
Feeders, screw, for feeding bulk solids, Dec. 47
Fertilizer acids, alloys for, Nov. 82
Fiber optic sensor detects gasoline, Dec. 17
Fibers boost optical isomer separation, Oct. 19
Filters
ceramic, process parameters of, Aug. 81
cleaning of, Nov. 65
factors affecting performance, Nov. 63
in-line, selection of, Mar. 75
removal efficiency and ratings, Mar. 76
sanitizing and sterilizing, Nov. 66
void volume of, Mar. 79
Filtration, cross-flow, Nov. 60
Finishes for bioreactors, Jan. 57

Fire-tube boilers

guidelines for, Feb. 61
sizing of, Oct. 70
Flame arresters, Apr. 69
Float-and-thermostatic steam traps, Jan. 31
Flow control
backflow prevention, Feb. 47
cross directional, Aug. 15
electronic motor drives, Feb. 40
metering pump flow characteristics, Feb. 34
Flow deviations in process plants, July 76
Fluid-bed incineration for hazardous waste destruction, June 50
Fluidized bed flow, semi-empirical approach to, Nov. 18
Fluids/solids handling
air classification vs. sieving, July 62
air classifiers, Apr. 50, July 59
booby trap pump calculations, Jan. 52
cross-flow filtration, Nov. 60
ion exchange resins, replacement of, Sept. 56
pumps, troubleshooting of, June 65
reactive extrusion, advantages and limitations of, Aug. 72
screw feeders, Dec. 47
Sherwood correlation for countercurrent gravity flow, Oct. 93
FLUIDTOOLS piping design software, June 95
Foam manufacture, wind tunnel curbs emission in, Oct. 20
Fouling of packing media in air stripping, Feb. 93
Freezing processes
crystallization, Mar. 58
for waste clean up, Dec. 16
Fuels
biodiesel, Feb. 44
Diesel-Bi for vehicles tested, May 16
ethanol myths, Sept. 23
methanol blends and reformulated gasoline, May 8
Fugitive emissions reduction through improved process equipment, Oct. 61
Fusion R&D, U.S. fiscal '93 budget proposals, Mar. 29

G

Gamma ferric oxide, transparent magnetic substance, Sept. 20, Oct. 21
Gaseous pollutants, biofiltration for decontaminating, Apr. 34
Gasket fire safety tests, Oct. 62
Gasoline
detected by fiber optic sensor, Dec. 17
produced from used lubricated oils, July 22
thermodynamics of, Aug. 8
Gas sweetening process licensed, June 20
GeneAmp Polymerase Chain Reaction process for environmental monitoring, Nov. 19
Generalized Pressure Drop Correlation, Jan. 65
Gilbert Erector Sets, Sept. 86
Glasses for sensors, July 20
Government
Competitiveness Council may be curtailed, Sept. 26
science and technology agencies may consolidate, Mar. 18
Group steam trapping, danger of, Jan. 37

H

Harassment, sexual, of women engineers, Jan. 7, 12
Hazardous waste
defined by Resource Conservation and Recovery Act, May 46
EPA clarifies criteria, Feb. 29
EPA proposal retracted, Nov. 23
legislation, May 45

radioactive, EPA to publish rule on, Apr. 25
supercritical water oxidation for, Apr. 20
HAZOP studies with an expert system, Aug. 28
Heat exchangers
bayonet, specification of, July 32
cleaning systems, brush and basket, July 40
plate and frame
capabilities of, July 26
sizing, July 30
typical applications, July 31
shell-and-tube
double segmental baffles in, Nov. 47
vibration in, Nov. 50
tube cleaning on-line, July 39
tube cleaning systems, rubber ball, July 42
tube-to-tubesheet joints in, July 36
U-tube vs. bayonet, July 32
Heat recovery boilers, Feb. 59
Heat-tracing system selection, Mar. 63
Heat transfer (See Heat Exchangers)
Heat Transfer Design Methods, book review, Sept. 92
Henry's Law, use of for multicomponent mixtures, Aug. 53
Hoppers
wall friction in, Mar. 24
wedge design often better than conical, Mar. 26
Hydraulic problems in pumps, June 65
Hydrochloric acid, adsorption options for, June 44
HYDROFLO piping design software, June 95
Hydrotels and controlled drug delivery systems, Dec. 14
Hydrogen sulfide, Henry's Law constants for, Aug. 56, 58

I

Imagers, infrared, for detecting process hot spots, Mar. 81
Impellers, axial-flow, and solids suspension, Mar. 34
Incinerators
and waste minimization, July 53
fluid-bed
for hazardous waste destruction, June 50
sizing and selection, June 56
for VOC destruction, Dec. 54
Information transfer, confidential survey on, Apr. 76
survey results, Oct. 85
Infrared imaging for more efficient diesel engines, Mar. 22
Infrared thermography, Mar. 81
Inorganic chemicals
exports and imports of, Aug. 66
methods for identifying and quantifying, Nov. 57
Instrumentation
biosensors for bioprocessing, Jan. 63
controllers on line, benefits of, June 74
modernization projects, June 26
PLCs for safety control, Jan. 59
Insulation, of process lines and steam tracing, Aug. 42
Ion exchange resins, replacement of, Sept. 56
Iron ore plant set for India, Mar. 22

J

Job hunting for those over 50, Jan. 74
Joints, tube-to-tubesheet, in heat exchangers, July 36
Joint ventures
GE and ICA Plastics build ABS plant, Jan. 23
precipitated silica business acquired, Mar. 22

propylene polymer advanced material compounds to be developed by Himont and S. Korean firm, Jan. 23
U.S. and former Soviet Union to pursue R&D projects, June 22

KL

Kumar, Ahok
elected to British House of Commons, Feb. 7
loses re-election bid, May 16
Legislation
Academics for Mathematics and Science Teaching Skills Act of 1992 introduced, Sept. 26
Clean Air Act
overview, Oct. 61
standards, Apr. 30
Clean Water Act provisions, Sept. 30
Comprehensive Environmental Response, Compensation, and Liability Act, May 50
critical technologies funding proposed, June 22
economic recovery package on Capitol Hill, July 24
Emergency Planning and Community Right-to-Know Act, May 49
energy bill threatened, Aug. 17
environmental glossary of, Jan. 50
Environmental Risk Reduction Act, Nov. 22
Occupational Safety and Health Administration Act, May 50
pension reform, Oct. 27
Resource Conservation and Recovery Act, May 45, Nov. 54
technology transfer, May 18
Toxic Substances Control Act, Apr. 26, May 50, Sept. 26, Oct. 27
Leung method for vent sizing, Nov. 94
Liquid-expansion thermostatic steam traps, Jan. 33

M

Maintenance of thermal oil heat-transfer systems, May 42
Manufacturing
custom, Nov. 67
R&D, U.S. fiscal '93 budget proposal, Mar. 28
workplace injuries down, Feb. 31
Materials
advanced, tips of selecting, Aug. 76
alloys for fertilizer acids, Nov. 82
austenitic stainless steel vs. carbon steel, June 69
ball valve, for abrasive processes, Dec. 73
for bayonet heat exchangers, July 34
for bioreactors, Jan. 55
for cleaning up radioactive waste, Sept. 25
composite, flaw detection system for, Feb. 21
corrosive, defined by Resource Conservation and Recovery Act, Nov. 54
crystalline compound with optical properties, Oct. 22
development of to be aided by supercomputers, July 18
for pumps, selection of, Sept. 50
gamma ferric oxide nanocrystals fluidized, Nov. 21
guide on use of standard reference materials in chemistry labs issued, Mar. 19
ignitability of, defined by Resource Conservation and Recovery Act, Nov. 57
infrared thermography, Mar. 81
intermetallic composites for high temperatures, Nov. 20

metals recovery from by-products urged by industry group, June 20
molybdenum disilicide composite for severe environments, May 17
particle size of, and drying, Dec. 24
plastics and electrostatics, Sept. 76
for plate and frame heat exchangers, July 29
precious metal recovery from spent catalysts, Dec. 66
pressure vessels, tracking of design, fabrication, and erection, July 68
for pumps, May 84
reactive and refractory metals, Feb. 65
silicon carbide, industrial applications for, Aug. 79
superconductors fabricated from melted powders, July 22
tantalum, properties, advantages, and limitations of, Feb. 69
toxic, defined by Resource Conservation and Recovery Act, Nov. 56
transparent, magnetic substance that is chemically identical to gamma ferric oxide, Sept. 20
U.S. fiscal '93 budget proposals, Mar. 28
McGraw-Hill Encyclopedia of Science and Technology, book review, July 86
Measurement and control
biosensors for bioprocessing, Jan. 63
controllers on-line, benefits of, June 74
electrochemical sensors, July 63
PID controllers for on-line quality control, May 71
reaction calorimetry for safer process design, Sept. 70
single and multiloop control, Feb. 54
statistical control charts, Mar. 72
Mechanical problems in pumps, June 65
Metal crystallization
vs. distillation, Mar. 54
for separating organics, Mar. 52
Membrane pervaporation, July 46
Membranes purify etching solutions, Feb. 23
Mentoring of young engineers by veterans, July 7
Metals
precious, recovery of from spent catalysts, Dec. 66
for pumps, Sept. 53
reactive and refractory, Feb. 65
recovery from by-products urged by industry group, June 20
Metering pump installations, Feb. 34
Methane, Henry's Law constants for, Aug. 57
Methanol
coal-derived, July 22
fuels for reducing ozone levels, May 8
Methyl tert butyl ether production process, Mar. 50
Metric guide available, Feb. 22
Microbes for cleaning coal, Mar. 25
Minority enrollments lag in science and engineering, June 18
Mixer design model, June 14
Mixing
cubic equations of state, rule for, May 10
for the Process Industries, book review, Oct. 99
Mixtures, multicomponent, Henry Law used for, Aug. 53
Modeling
plant, and computer-integrated manufacturing, Nov. 76
probabilistic, for analyzing uncertainties, May 66
Models
3-D, for solving mixing problems, June 14
reactor, help predict startup, Dec. 17
Motor drives, Feb. 40
MTBE production by RWD technology, Mar. 50

MULTIFLOW II piping design software, June 96
Multiloop controllers, Feb. 54
Munitions, process for defusing, Oct. 23

N

National Ambient Air Quality Standards, Apr. 30
National Institute of Science and Technology polymer program launched by, June 22
U.S. fiscal '93 budget proposals, Mar. 28
National Pollutant Discharge Elimination System requirements, Sept. 34
National Science Foundation
Academic Research Infrastructure Program, Feb. 31
future of under review, Dec. 18
U.S. fiscal '93 budget proposals, Mar. 28
Net present value calculations for waste disposal projects, July 57
New Emission Standards for Hazardous Air Pollutants, Apr. 32
New Source Performance Standards, Apr. 32
Niobium, properties, advantages and limitations of, Feb. 68
Nitrogen compounds, catalyst for removing, July 21
Nitrogen oxide, elimination of in jet engines via catalytic combustion, Mar. 19

O

Occupational Safety and Health Administration
"catastrophic release" defined by, Apr. 25
hazard communication standard, May 50
process safety management rule published by, Apr. 25, Aug. 28
Odor control in CPI facilities, Dec. 53
Operator certification programs, Feb. 23, Mar. 92
Organics separation by melt crystallization, Mar. 52
Organometallic chemistry for catalyst development, July 12
Overpressure sources in process plants, July 74
Oxidation, vapor-phase advanced, for plant odor control, Dec. 58
Ozone-depleting substances, data sought on by EPA, Apr. 26

P

Packed-tower pressure-drop correlations, Jan. 65
Packing media, fouling of in air stripping, Feb. 93
Packings and trays, high efficiency, Mar. 36
Paper sludge converted to ethanol, Oct. 19
Patents, value and use of, July 79
PCBs, processes for destroying, Nov. 12
PC-FACETS software for tracking safety compliance, Aug. 69
Pension reform legislation, Oct. 27
pH control system, Oct. 34
Phosphoric acid alloys, Nov. 84
Photovoltaic research, Feb. 26
Physical properties data and computer-aided process engineering, Feb. 77
PID controllers for on-line quality control, May 71
Pinch technology, Feb. 80, Sept. 96
PIPE-FLO piping design software, June 96
PIPE-PRO piping design software, June 98
Piping
design software, June 95

effect of delta P on design, Aug. 23
inlet and outlet, sizing of, Feb. 72
plastic-lined, vacuum capabilities of, Apr. 56

Plants
batch automation in, Apr. 61
emergency response to accidents, Dec. 62
emissions and discharges, Aug. 48
environmental review of, Aug. 46
flow deviations in, July 76
hazards evaluation in, Aug. 36
instrumentation upgrade projects, June 26
iron ore facility set for India, Mar. 22
odor control in, Dec. 53
operating permit program, Apr. 41
overpressure sources in, July 74
and pollution control laws, Apr. 30
process, computer integrated manufacturing in, Nov. 71
temperature deviations in, July 75
wastewater treatment strategies, Nov. 34
water pollution laws governing, Sept. 30
Plastic-lined piping, vacuum capabilities of, Apr. 56
Plastic materials and electrostatics, Sept. 76
Plastics, recycling of, Feb. 18
PLCs for safety control, Jan. 59
Pleated vs. depth filter cartridges, Mar. 75
Pneumatic fracturing extraction for cleaning contaminated soils, Oct. 25

Pollution control
acid rain program enters second decade, Feb. 19
chitin gobble up toxic waste, Sept. 24
Clean Water Act provisions, Sept. 30
diesel truck emission facility opens, July 23
electroplating strips heavy metals for soil, Mar. 25
fluid-bed incineration of hazardous wastes, June 50
government process licensed to NOXSO, Jan. 22
Indoor Air Act approved by Senate, Feb. 29
methanol fuels for reducing ozone levels, May 8
soil decontamination, frozen, sped by warming, Apr. 23
supercritical water oxidation for hazardous wastes, Apr. 20
surfactant flooding for groundwater aquifers, May 16
toxicity test, whole-effluent, Sept. 36
toxic release inventory issued by EPA, Aug. 17
waste freezing process, Dec. 16

Polymerization of acrylate and methacrylate, catalyst system for, Mar. 23

Polymers
analysis techniques, Oct. 81
biodegradable, and controlled drug release, Dec. 12
corrosion resistance of, Aug. 77
EPA proposing abbreviated premanufacture notice review for, Dec. 18
imports and exports of, Aug. 65
program for launched by National Institute of Standards and Technology, June 33
Powder production aided by aerosol process, Oct. 20

Pressure
drop correlations for packed towers, Jan. 65
drop in filters, Mar. 78
problems in pumps, June 66
vessels, fast-tracking of design, fabrication, and erection, July 68

Process control
and computer-integrated manufacturing, Nov. 78
data analysis procedures, Oct. 45
process and control system design integration, Oct. 30
system failure, Oct. 37
system redundancy, Oct. 36
variable measurements, types of, Oct. 36

Process design
Pinch technology for, Sept. 62
reaction calorimetry for, Sept. 70
Process engineering, integrated, Feb. 81

Processes
abrasive, ball valve materials for, Dec. 73
for acetaldehyde production, Mar. 17
aerosol, for powder production, Oct. 20
anaerobic treatment of animal wastes in Puerto Rico, Oct. 17
catalytic, for recovering bromine from hydrobromic acid, Sept. 16
for converting paper sludge to ethanol, Oct. 19
crystallization, Mar. 57
for defusing munitions, Oct. 23
ethanol produced from wood and paper, Mar. 17
GeneAmp Polymerase Chain Reaction, for environmental monitoring, Nov. 19
for methyl tert butyl ethyl production, Mar. 50
for PCB destruction, Nov. 12
for pollution control, developed by DOE, licensed to NOXSO, Jan. 22
for progressive freezing, Mar. 58
for propane/propylene separation, Mar. 12
and pump improvement, Nov. 26
superficial disposal, Mar. 19
supercritical water oxidation for hazardous wastes, Apr. 20
surfactant flooding for groundwater aquifers, May 16
titanium dioxide, May 11

Process hazards
analysis technique, Aug. 28
risk management program, June 90
Process Safety Management standard published by OSHA, Apr. 25
Process simulation, Feb. 76
Professional development
crisis communications plans, Mar. 96
employment over 50, tips on getting a job, Jan. 74
female engineers face obstacles, Aug. 16
patents, value and use of, July 79
technical sales, Sept. 89
two-career families, Apr. 10
Progressive freezing processes, Mar. 58
PROLINE2 piping design software, June 98
Propane/propylene separation process, Mar. 12
Pulp delignification, Nov. 19
Pump (Ver. 1.0) pump performance prediction software, Nov. 43
PUMP (Ver. 3.0) pump performance prediction software, Nov. 43
PUMPCURV pump performance prediction software, Nov. 44
PUMP-FLOW pump performance prediction software, Nov. 45

Pumps
in backflow prevention systems, Feb. 50
bearing wear, Nov. 33
bolting and gasketing, Sept. 50
calculations for, booby traps in, Jan. 52
cavitation in, Sept. 51
centrifugal, Oct. 67, Nov. 35
corrosion in, Sept. 51
magnetic drive, preventing failure of, Nov. 31
materials for, May 84, Sept. 50
and process improvement, Nov. 26
software for performance prediction, Nov. 43
troubleshooting problems in, June 65

QR

Quality in Work in Research and Development, book review, Dec. 84

Radioactive waste
disposal processes, Mar. 19
materials for cleaning up, Sept. 25

Reaction calorimetry
for safer process design, Sept. 70
and thermal mass flow measurement, Oct. 53

Reactions and separations
bioreactor sterility, Sept. 80
catalysts, precious metal recovery from, Dec. 66
computer-aided process engineering, Feb. 76
confidential information transfer, survey on, Apr. 76
confidential information transfer, survey results, Oct. 85
membrane pervaporation, July 46
packed-tower pressure-drop correlations, Jan. 65
process engineering expedited by computers, Aug. 59
uncertainty analysis, May 63
vapor cross-flow channeling on sieve trays, Nov. 86

Reactive extrusion, advantages and limitations of, Aug. 72

Reactive metals, Feb. 65

Reactors
feeds in backflow prevention systems, Feb. 51
models helps predict startup, Dec. 17
runaway reactions in, Nov. 94
Recirculation and cavitation in centrifugal pumps, Nov. 35
Recycle, total, not a demonstrated technology, EPA says, Jan. 27
Recycling of plastics, rubber, Feb. 18
Refractory metals, Feb. 65
RegScan software for tracking safety compliance, Aug. 70

Regulations
EPA proposing abbreviated premanufacture notice review for chemicals, Dec. 18
National Ambient Air Quality Standards, Apr. 30
New Emission Standards for Hazardous Air Pollutants, Apr. 32
New Source Performance Standards, Apr. 32
operating permit program, Apr. 41
Prevention of Significant Deterioration, emission standards, Apr. 33
process safety management rule published by OSHA, Apr. 25
on radioactive waste to be issued by EPA, Apr. 25

Relief valves
in metering pump installations, Feb. 37
sizing of, Aug. 20, Nov. 94

Removal efficiency and ratings of filters, Mar. 76

Research & Development
advanced manufacturing, U.S. fiscal '93 budget proposal, Mar. 28
expenditures expected to hit \$156 billion, Mar. 15
U.S. expenditures for declining, Mar. 18
U.S. and former Soviet Union to pursue joint ventures, June 22

Research
guide available on programs of National Institute of Standards and Technology, Jan. 24
joint, between U.S. national labs and former Communist countries, Aug. 18

Resins, ion-exchange, replacement of, Sept. 36

Resource Conservation and Recovery Act
corrosive materials defined, Nov. 54
hazardous waste defined, May 46
ignitability of materials defined, Nov. 57
reactivity of chemicals defined, Nov. 57
toxic materials defined, Nov. 56
Resume writing tips, Jan. 74

Risk
analysis of chemical processes, Sept. 70
Reduction Act, Environmental, Nov. 22
Rubber, recycling of, Feb. 18

S

Safety
 with dryers, Dec. 26
 electrostatics and plastics, Sept. 76
 emergency response to a plant explosion, Dec. 62
 flame arrester selection, and operation, Apr. 69
 hazardous materials workers require more training, Aug. 17
 hazards revealed by engineering documents, July 73
 HAZOP studies with an expert system, Aug. 28
 noncondensable gas evolution, Oct. 54
 operator certification, Mar. 92
 plant modifications can create trouble, May 78
 PLCs for control, Jan. 59
 precautions for testing classifiers, Mar. 32
 process hazards reviews, June 90
 reaction calorimetry and thermal mass flow measurement, Oct. 53
 reaction calorimetry for, in process design, Sept. 70
 rules ignored by three industries, Jan. 27
 runaway reactions in reactors, Nov. 94
 with thermal oil heat-transfer systems, May 42
 toxic chemicals identification and screening, Aug. 33
 valves, relief, sizing of, Feb. 70, Aug. 20, Nov. 94
 valves, test for, Oct. 62
 Salaries of chemical engineers, May 7, May 51
 Sales, technical, Sept. 89
 Screw feeders for feeding bulk solids, Dec. 47
 Scrubber systems for plant odor control, Dec. 59
 Seals, centrifugal pump, Oct. 67
 Seating materials for ball valves, Dec. 74
 Sensors
 "smart glass" for, July 20
 electrochemical, July 63
 fiber optic, for gasoline, Dec. 17
 Separation technology
 energy saving opportunities, Mar. 32
 for propane/propylene, Mar. 12
 Israeli unit provides seven split streams, Nov. 15
 organics separation by melt crystallization, Mar. 52
 reactive distillation, Mar. 43
 thermodynamic efficiency of, Mar. 32
 Sexual harassment of women engineers, Jan. 7, 12
 Sherwood correlation for countercurrent gravity flow, Oct. 93
 Shewart control charts, Mar. 86
 Sieve trays, vapor cross-flow channeling on, Nov. 86
 Silicon carbide, industrial applications for, Aug. 79
 Simulation of processes, Aug. 59
 Simultaneous engineering and computer-integrated manufacturing, Nov. 73
 Single-loop controllers, Feb. 54
 Siphoning, static, in metering pump installations, Feb. 38
 Smart transmitters, Oct. 37
 Smith, Adam, economic theories of, Feb. 86
 SOCMA Chemical Operator Certification Training Program, Mar. 94
 Software
 for dryers, Dec. 41
 for sizing relief valves, Aug. 25
 for piping system design, June 95
 for predicting coal ash deposit properties, Sept. 22

for predicting pump performance, Nov. 43
 for tracking safety compliance, Aug. 69
 wind processing conversion programs, Mar. 100
 Soil decontamination
 pneumatic fracturing extraction for, Oct. 25
 process for PCB removal, Nov. 14
 warming accelerates, Apr. 23
 Solids handling
 flow problems in bins, hoppers, and feeders, Mar. 22
 mixing impellers, Mar. 34
 particle-size-classifier performance, Mar. 29
 Solids separation technology, Nov. 15
 Solids suspension and axial-flow impellers, Mar. 34
 Spreadsheet programs, using simulation data in, Aug. 60
 Stainless steel
 austenitic, vs. carbon steel, June 69
 critical crevice corrosion temperature for, Aug. 77
 Standards for plastic-lined piping, Apr. 58
 Statistical process control charts, Mar. 86
 Steam and air stripping for wastewater treatment, Sept. 41
 Steam systems
 dangers of common steam trapping, Jan. 37
 trapping due to group trapping, Jan. 37
 traps
 balanced pressure thermostatic, Jan. 33
 bimetal, Jan. 34
 float-and-thermostatic, Jan. 31
 installation of, Jan. 44
 inverted bucket, Jan. 31
 liquid-expansion thermostatic, Jan. 33
 load factors, Jan. 43
 maintenance, Jan. 46
 mechanical, Jan. 30
 problems of, Jan. 32
 selection of, Jan. 30, 42
 sizing, Jan. 43
 thermodynamic, Jan. 30
 troubleshooting, Jan. 45
 Steam tracing, Aug. 40
 Strategic Partnership Initiative established by Dept. of Congress, Nov. 22
 Stress-corrosion cracking in stainless steel, Feb. 71
 Students, U.S., quality of questioned, June 79
 Suction lines in metering pump installations, Feb. 36
 Sulfuric acid alloys, Nov. 82
 Supercomputers to aid development of new materials, July 18
 Supercritical extraction/oxidation for cleaning contaminated soil, Nov. 14
 Supercritical fluid extraction for cleaning waste from vegetable oil refining, Mar. 26
 Supercritical water oxidation for hazardous wastes, Apr. 20
 Superfund suit won by U.S. against Chemical Waste Management, Nov. 19
 Surface measurement of advanced ceramics, July 12
 Surfactant flooding process for groundwater aquifers, May 16
 Survey on confidential information transfer, Apr. 76, Oct. 85
 Sustainable development, Feb. 84

T

Tantalum, properties, advantages, and limitations of, Feb. 69
 Technologies, critical, funding for proposed, June 22
 Technology
 advanced, program grant winners, June 22
 chemical, acquisition of, Oct. 77
 education, problems facing, Apr. 81

national policy proposed, Nov. 22
 and science, government report calls for coordinated planning on, Dec. 18
 Technology transfer
 legislation proposed, May 18
 U.S. fiscal '93 budget proposal, Mar. 28
 Temperature deviations in process plants, sources of, July 75

Tests

for effluent toxicity, Sept. 43
 for gasket fire safety, Oct. 62
 for plant effluent pH, Sept. 47
 for valve fire safety, Oct. 62
 for whole effluent toxicity, Sept. 36
 Thermal data, basic questions concerning, Sept. 72
 Thermally stimulated current technique for polymer analysis, Oct. 81
 Thermal mass flow measurement and reaction calorimetry, Oct. 53
 Thermal oil heat-transfer system, preventing fires in, May 42
 Thermography, infrared, for detecting hot spots in materials, Mar. 81
 Titanium
 dioxide process, May 11
 properties, advantages, and limitations of, Feb. 65
 Total recycle not a demonstrated technology, EPA says, Jan. 27
 Tower, packed, pressure-drop correlation for, Jan. 65
 Toxic chemicals, identification and screening of, Aug. 33
 Toxic release inventory issued by EPA, Aug. 17
 Toxic Substances Control Act
 asbestos to be subject of hearings, Apr. 26
 changes not planned this year, Oct. 27
 microbial products may be reviewed under, Sept. 26
 provisions and penalties of, May 50
 Toxic waste, gobbled up by chitin, Sept. 24
 Tracking of hazardous wastes, Nov. 59
 Training
 hazardous workers require more rigorous instruction, Aug. 17
 operator certification programs, Feb. 23, Mar. 92
 Training Ledger software for tracking safety compliance, Aug. 71
 Transfer units for cooling towers, predicting number of, Apr. 67
 Transmitters, smart, Oct. 37
 Trays, sieve, vapor cross-flow channeling on, Nov. 86
 Troubleshooting
 of absorbers, June 41
 of pumps, June 65
 of steam system traps, Jan. 45
 TRUMP, pump performance prediction software, Nov. 46
 Turbine, combustion, coal-powered, Feb. 22

UV

Uncertainly analysis, May 63
 United States
 chemicals trade surplus, Aug. 63
 fiscal '93 budget holds promise for chemical engineering, Mar. 28
 R&D expenditures declining, May 18
 Vacuum, process, causes of, Apr. 57
 Valves
 in backflow prevention systems, Feb. 50
 emission control, Oct. 63
 fail safe, Oct. 44
 first safety tests, Oct. 62
 relief, in metering pump installations, Feb. 37
 relief, sizing of, Aug. 20, Nov. 94
 safety, sizing of and the ASME Code, Oct. 76

seating materials and coatings, Dec. 74
 Vapor cross-flow channeling on sieve trays, Nov. 86
 Vegetable oil refining wastes cleaned using supercritical fluid extraction, Mar. 26
 Vent lines, emergency, flame arresters in, Apr. 75
 Vent sizing methods, Nov. 97
 Vessels
 surge, sizing of, Oct. 32
 level deviations in, July 77
 Vibration
 flow-induced, in heat exchangers, Nov. 50
 in heat exchanger tubes, July 36
 problems in pumps, June 65
 Void volume of filters, Mar. 79
 Volatile organic compounds
 EPA releases guidance on, Feb. 29
 removal of from wastewater via air stripping, Feb. 89

WZ

Waste
 chicken, anaerobic process for disposal of, Oct. 17
 disposal, incineration and minimization, July 53
 freezing process, Dec. 16
 hazardous, EPA clarifies criteria, Feb. 29
 minimization analysis, Aug. 49
 radioactive, disposal processes for, Mar. 19
 radioactive, materials for cleaning up, Sept. 25
 rum, anaerobic process for disposal of, Oct. 17
 toxic, gobbled up by chitin, Sept. 24
 Wastewater treatment
 biomonitoring to reduce effluent toxicity, Sept. 43
 compliance strategies for plants, Sept. 34
 pollution laws governing plants, Sept. 30
 Water oxidation, supercritical, for hazardous wastes, Apr. 20
 Water-tube boilers, Feb. 62, Oct. 73
 Wind tunnel curbs emission in foam manufacture, Oct. 20
 Word processing conversion programs, Mar. 100
 Workplace injuries down in manufacturing sector, Feb. 31
 Zeolite and crystal growth experiments on space shuttle, Aug. 13
 Zirconium, properties, advantages, and limitations of, Feb. 66
